

## More Bandwidth – Less Price

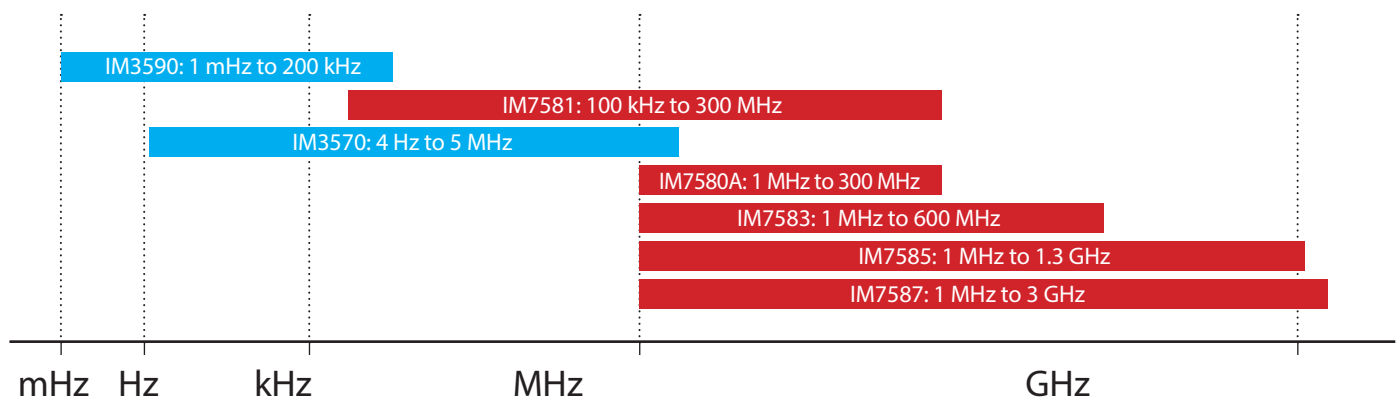

Combine 2 Impedance Analyzers to measure from mHz to GHz and save **20%\*** to measure from mHz to GHz and save

### The choice is yours!

Choose one Impedance Analyzer for low frequencies (IM35XX-series) and add an Impedance Analyzer for high frequencies (IM75XX-series) to maximize your

measurement bandwidth and save 20% compared to purchasing the instruments separately.

**Also Save 20%**  
on all accesories you add.\*
